Comments: The UAA survey occurred in March, 2005 and no uses were observed. The stream met the maximum depth and average depth criterion at one out of six sites. There were footprints, fire pit and evidence of trapping and fishing. The committee recommends that the WBC designation be retained from Highway 6 to the mouth and be removed above that crossing since the creek is very shallow to that point.

Committee Recommendation: ☐ Retain Use ☒ Modify Use ☐ Remove Use
